## CONFERENCE TRANSFORMATIONS LEARNING FROM TRANSFORMATIVE ACTION AND THINKING 2019

### AIM

Transformations 2019 aims to provide a platform for reciprocal learning between less and more developed contexts, and between researchers and practitioners, in order to enhance both practice and theory to support transformative changes for addressing climate change and other contemporary societal and environmental challenges.

### OVERVIEW

The planet is experiencing rapid changes and the rate of these changes is the most accelerated observed unfolding in a wider spectrum. Global changes, such as climate change, are impacting both society and the environment. In a single generation, humans have grown into an enormous global force, we are part of this story, we have built the planet past and present, we are responsible, and this responsibility cannot be a driver for inaction, rather there is a hope and motivation for writing the planet's future...
